

Company: Delp & Associates, LLC is an Ohio company founded in 1996; administration and design offices are located in Columbus. The company is experienced in product and material development research; hazardous material handling, qualifies as a small woman owned business and is eligible for participation in the Small Business Innovation Research and Small Business Technology Transfer programs.

Company Principals: Lisa Delp, a business professional with more than 15 years of experience in office and employee management. In addition to managerial roles her professional experience includes creation and implementation of laboratory health, safety, and regulatory compliance programs. Past certifications include 40-hour HAZWOPPER and 40-hour Ammonia Safety training.

Terrence Delp possesses more than 25 years of experience in the design, fabrication, and assembly of laboratory equipment. In addition, hands on roles include operation of bench- and pilot-scale chemical research using hazardous or controlled materials. Past certifications include 40-hour HAZWOPPER and 40-hour Ammonia Safety training.

Key Product: The Delp Mixer, an in-line laboratory mixer that increases operator safety, scope of use, and process scalability; reduces cost to operate, equipment complexity, & waste products; enables pressure (200psi max) or vacuum (30 in. Hg) operation in standard laboratory glass or metal reaction vessels.

Services: Design and manufacture of built-to-task equipment; modifications of existing products; prototype fabrication; material & component procurement; system assembly; creation of "new" old stock components.

Pricing Best price policy available to all government customers. Prices are within simplified acquisition guidelines.

Capabilities

- Built-to-Task-Equipment
- Product Modification
- Forensic Engineering of components for equipment repair.
- **Can, & have, processed Smart Card purchases.**

Past Projects

- Mixing Systems for Materials Processing & Research
- Test Stand with High Precision Adjustment Capability
- Pressure Capable Reaction Vessels for Materials Research
- Dielectric Gas Test Cells for Refrigerant Research

Facilities & Equipment

- AutoCAD
- Network of Specialized Fabrication Facilities
- Source Network for Specialized Components
- Comprehensive Product & Materials Library

Customers

- Argonne National Laboratories - **DOE Facility**
- Firmenich
- Rohm & Haas
- Westinghouse, Savannah River Site - **DOE Facility**
